BANNER DISPLAYS

Mark Bric Bannerup Plus

The Bannerup Plus is with no doubt one of the best retractable banner displays available in the world. It is the Perfect banner display for exhibitions, events, conferences & promotion campaigns especially where quality & reliability is a number one priority.

 Turn to page 15 & 16 for BannerUp Plus accessories.

The BannerUp Plus multi height capabilities & range of sizes allows you to get your message out in nearly any size, from 480mm high to 3000mm high & from 250mm wide to 2400mm wide.

Side By Side Connection

The Flat ends allow you to connect systems together to create large backdrops, they also minimise damage if dropped on the ends during transport.

Patented Graphic Quick Change

The patented quick change features allows you to change banners quickly & easily without having the system sent back for banner replacement

Stability

The hideaway swivel feet can easily be accessed for extra stability if needed.

Colours

The BannerUp Plus is now available in Black.

Carry Bag

All BannerUp plus systems include a high quality carry bag.

Easy Tension Adjust

Depending on the material you use you can easily adjust the tension to suit, just use a regular screw driver. It couldn't be easier!

Bannerup Plus 2400

Mark Bric Bannerup Connectors

Bannerup Plus 2400

The BannerUp Plus 2400 has now made the Bannerup Plus the most complete retractable banner stand series available. The Bannerup Plus 2400 has all the unique features of the standard sizes but comes with the extra long feet for extra stability.

Item No	Width (mm)	Overall Assembled	Packed Dimensions	Weight	Packing	Warranty
81119	2400	140x2120x2410	140x110x2410	18kgs	1 per box	10 years

The BannerUp Plus offers an alternative solution for large back drops. The standard height is 2120mm height (graphic height is 2060mm). If other heights are needed you can simply add extension poles or take poles away.

Mark Bric Bannerup Connectors

The BannerUp Plus is ideal to connect side-by-side to achieve a full size back wall. Thanks to the unique design of the Bannerup Plus, the gap between the banners is kept to a minimum.

Item No	Product Description	Packing

Bannerup Plus Quick-Change Kits

Padded Carrying Bag

Extension Poles

Halogen Spotlight

Bannerup Plus Quick-Change Kits

Easy banner change - a unique patented banner change feature on the Mark Bric Banner Systems allows you to repeatedly use different banners in the one system.

Just slide the old one out & replace it with a new one. In order to do this you will need a Quick-Change kit for each banner. The kit contains one pair of rails (top & bottom)

Padded Carrying Bag

The premium Bannerup Carrying Bag includes extra thick padding which gives shock-proof protection against damage during transport. A convenient shoulder strap is also fitted

Extension Poles

The Extension Poles allow you to increase the banner height. The 1200, 1500 & 2400 systems require 2 poles, all other sizes only 1.

Halogen Spotlight

Focus all attention on your graphics with a Halogen Spotlight!

ISOframe Ripple®

1
Two Ripple banner stands

2
Add a flexible link panel

3
A complete 3-section display wall

ISOframe Ripple®

Flexible and extremely cost effective, the ISOframe Ripple will literally change the shape of your portable display experience. The graphic panels can either be attached to a banner stand or used as a flexible link graphic, creating a clean seamless and contemporary portable display wall that provides a strong visual impact.

*Why choose between a banner stand and a pop-up system...
WHEN YOU CAN HAVE BOTH!*

The Ripple wall can be flexed into almost any shape you want and gives you maximum flexibility for reducing or enlarging the size of your display to suit your needs. Add or remove panels one-by-one as desired.

Media screen attachments, spotlights and a unique case/counter solution are available as accessories. Its ability to fit into the boot of a small car makes it ideal for flyaway events and exhibitions.

If simplicity, flexibility, speed of assembly and price competitiveness is what you want from a portable display system then the Ripple ticks all the boxes.

All panels are 800 mm wide.
Standard height 2100 mm.

Item No	Description
ACEB	Eye Banner Fittings & Banner

Rite Bannerfix – Large

Banner Tie Back

Rite Bannerfix – Large

The Heavy duty version of our Rite Bannerfix – Small unit, these are great for attaching banners to poles or buildings.

It is important to think about the exposure to wind, location and how you will fix these to the pole or building. There are many factors that you need to consider when attaching banners to structures as they significantly increase wind load, you can reduce the load by reducing the length of banner.

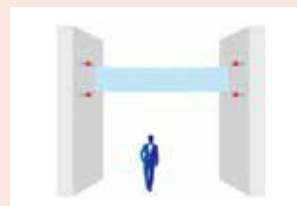

Item No	Description	Width	Packing

4

Mark Bric Flexiframe

Flexiframe is the ultimate graphic display solution for all your retail, corporate & exhibition display needs. Possible configurations, design & layouts are endless plus the choice of colour make the opportunities almost infinite.

Renting from an exhibition company is usually very expensive & even more of a problem – your stand will look like all the other exhibitors.

Purchasing a Flexiframe system makes good economic sense & will really make you stand out in the crowd. Most organisations would have covered the cost of the purchase by the second exhibition, as compared with renting.

The flexibility of the Flexiframe means you can also use the system between the exhibitions & trade shows in its original form or readjusted to suit your display area such as the reception or showroom in your company... all by using the same panels.

One of the world's most versatile display & exhibition systems!

We offer the Flexiframe in 4 different forms

- 1 Basic Flexiframe Kits
- 2 Advanced Flexiframe Kits
- 3 Custom designed Kits
- 4 Build your own Kits

Velcro Panel Displays

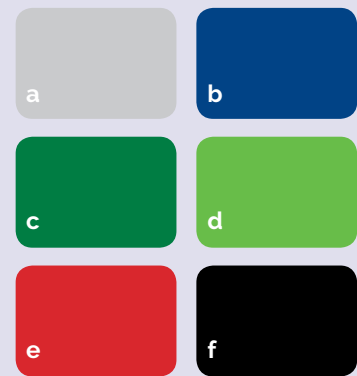

Velcro Panel Displays

The Velcro Panel Displays are a very portable display system for displaying various different poster sizes & information leaflets. They are commonly used by community centres here the latest news can be pinned up or attached easily & efficiently.

Each system comes with:

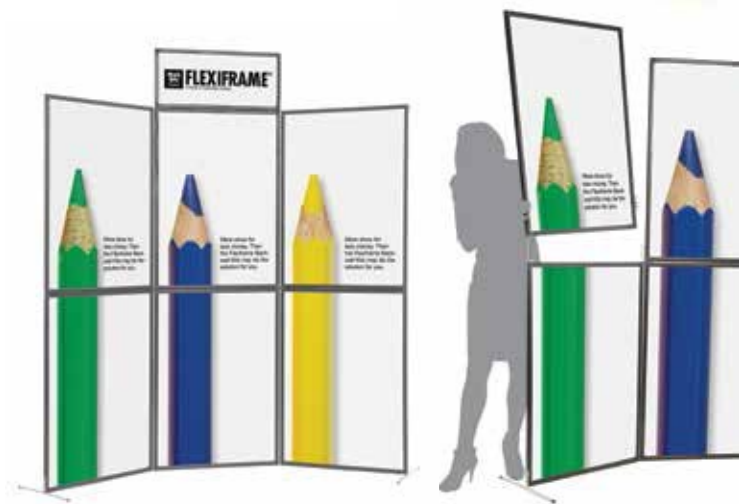

- Carry Bags (except the add on 2 panel)
- Connectors for backwall (connectors are available for different configurations)
- Instructions
- Panels (700mm x 1000mm)
- Optional headers (700mm x 300mm)

Each panel is approx 700mmW x 1000mmH & is extremely lightweight but rigid & strong. Panels can be placed in a portrait or Landscape format. Each panel is covered with velcro receptable fabric on both sides. You can choose between 6 different fabric colours & 16 different frame colours.

Item No	Description	Size(wxh)	Weight(approx)
ET3-1001	6 Panel Display	2190mm x 2060mm	13KGS
ET3-1002	6 Panel Display with Headers	2190mm x 2390mm	17.5KGS

ET3-1004	8 Panel Display with Headers	2920mm x 2390mm	22KGS
ET3-1005	10 Panel Display	3650mm x 2060mm	26.5KGS
ET3-1006	10 Panel Display with Headers	3650mm x 2390mm	26.5KGS
ET3-1007	Add on 2 Panel Kit	730mm x 2060mm	3.5KGS
ET3-1008	Add on 2 Panel Kit with Headers	730mm x 2390mm	4KGS

Standard Flexiframe Systems

Standard Flexiframe Systems

The Flexiframe Systems can be purchased with frames only so you or your client can insert your own graphic panels. We highly recommend 5mm gatorfoam as the insert & if you want to just insert a poster you need to sandwich them between 2 pieces of clear plastic.

All systems include

- Carry bags & connectors.
- You can choose your own frame colour to match your clients corporate colours

Stand out from the crowd by choosing our new SnapUp model with a "wavering" design. Perfect symmetry when used as a dividing wall with double sided graphic panels (add extra magbars). Comes in two sizes, 4x3 & 6x3.

Model	Item No	Sizes
4X3	82295	3350(w) x 2225(h) x 530(d)mm
6X3	82296	4490(w) x 2225(h) x 720(d)mm

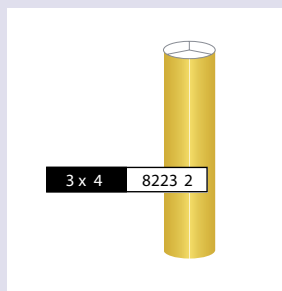

Always Included: All SnapUp backwalls & towers include, at no surcharge, protective covers for the structure & the magbars.

Tower - Basic structures

650 x 2225 (h) mm

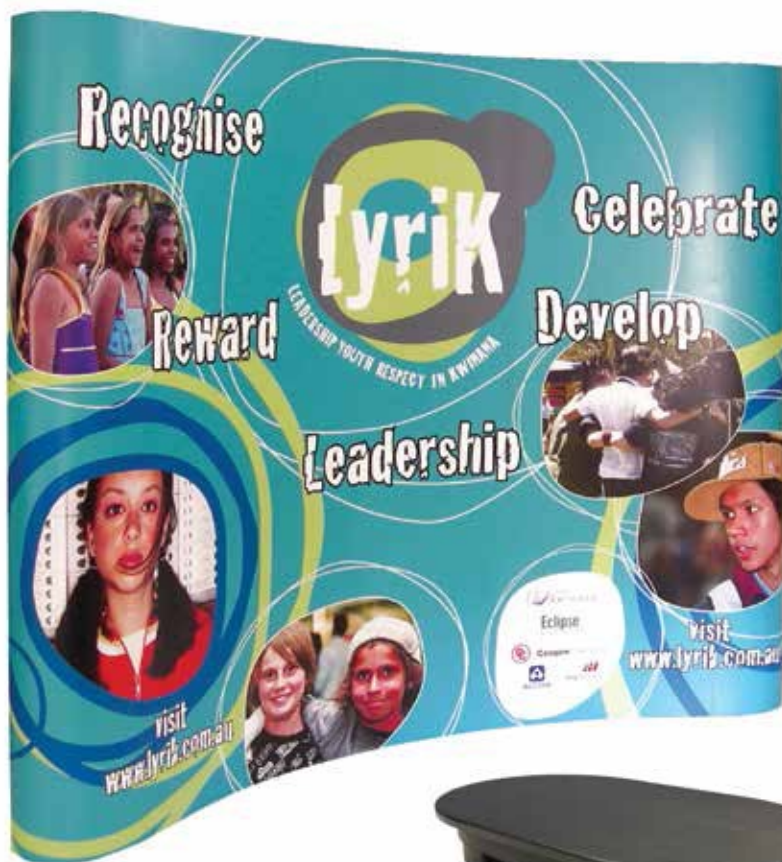

650 x 2955 (h) mm

Attachment of Graphic Panels: To be able to attach the graphic panels to the system, you must add "kickers & hangers" or "hang tabs", as well as magnetic tape.

Mark Bric Snap Up Stretch

Mark Bric Snap Up Stretch

Our newest SnapUp addition offers the quickest & easiest way to set up & display a seamless large format Graphic print. Ideal to use at short term events & exhibitions when time is a decisive factor.

i The SnapUp stretch is available in a straight format & in 3 different sizes. You can choose to have the fabric covering ends or just use the front side as your display area. The printed fabric remains attached to the system also during take-down & storage in the protective carrying bag or case.

i **Flexibility:** The graphic image is printed on a stretch Fabric material & then attached to the system with velcro tape. In erecting the system, the fabric is automatically stretched out & a smooth surface is achieved.

Item No	Description	Width(mm)	Depth(mm)	Height(mm)	Packing	Warranty

Mark Bric Ego Exhibit

MARK BRIC EGO
 Building on a bright idea™

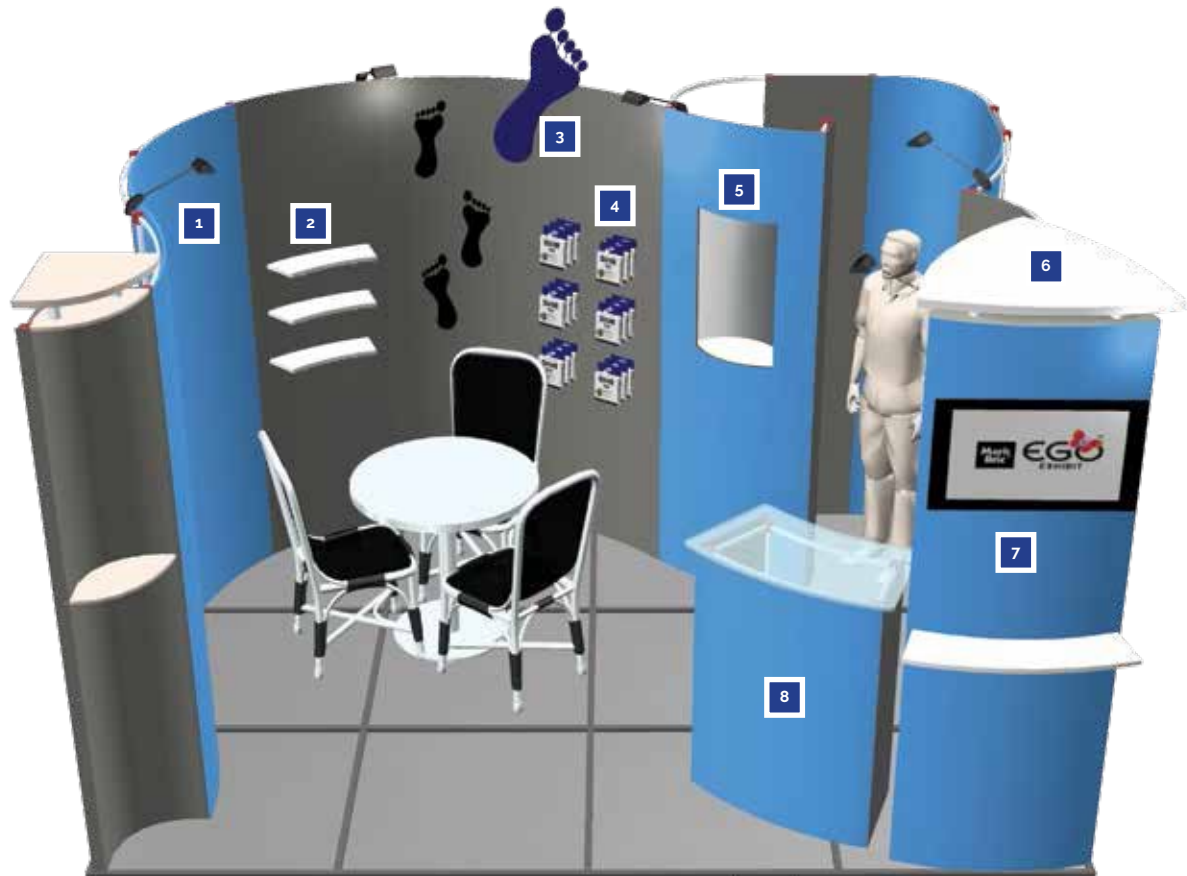

Mark Bric Ego Exhibit

Introducing Mark Bric EGO - a revolutionary concept within displays & exhibition building. Ego gives wings to a bright new idea of having a distinctive graphic panel system with room for much more creativity & customised designs, compared to more limited stand building & pop-up systems. The construction virtually disappears in favour of the printed graphics, your message - visual communication at its best.

The new concept is delivered as a highly engineered, yet extremely simple building system using only three basic components. Ego can be assembled in virtually any size & shape configuration, with the structural integrity for mounting heavy accessory items such as LCDs, product showcases, & load bearing shelves. To keep things simple, Ego even provides completely tool-free assembly.

Mark Bric Ego Exhibit Customisation Options

Mark Bric Ego Exhibit Customisation Options

Further customise your stand by adding a number of the attractive & functional ego accessories

- | | | | |
|---|---------------|---|------------|
| 1 | Spotlights | 5 | Show cases |
| 2 | Shelving | 6 | Tower tops |
| 3 | Customised 3D | 7 | LCD |
| 4 | Hooks | 8 | Counters |

EGO Customisation: EGO is extremely compact during transport & storage. All six trade show stands are delivered in custom-made rolling shipping cases with compartments for the different components.

Mark Bric Ego Exhibit

Mark Bric ISOframe®

ISOframe Wave™

ISOframe Wave is ideal for small & medium sized exhibit areas & will adapt to any size of stand. Choose Wave for maximum flexibility & simplicity. Wave is sold in kit form (Starters & Extensions).

ISOframe Compact™

ISOframe Compact brings in more architectural features & a more rigid beam construction. Choose Compact for maximum in design & stability. Compact is sold in kit form (Starters & Extensions).

ISOframe Exhibit™

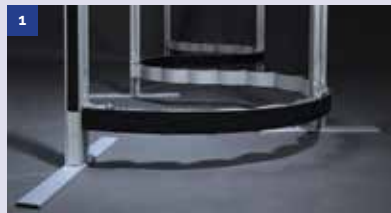

ISOframe Exhibit is ideal for larger exhibit areas where a more advanced construction is needed. Choose Exhibit for maximum in versatility & size. Exhibit is sold in component form.

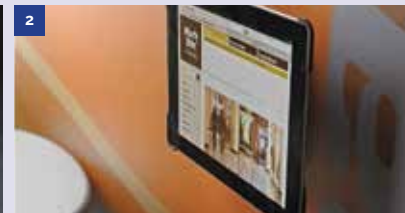

Mark Bric ISOframe®

For large custom modular stands or for self-build portable systems, the new & unique Mark Bric ISOframe exhibition system is the intelligent choice. The ISOframe structure can be assembled quickly, thanks to the tool-free FASTclamp connector, & can be clad in any number of rigid, semi-rigid or flexible graphic panels. No specialist trades are required during set-up. This coupled with reduced storage & transportation costs, not to mention the re-usability of the system, means exhibiting becomes a lot more cost effective with ISOframe. Read more – www.isoframe.com

Fully interchangeable: ISOframe is “one” system! Framework sections of the different models (Wave, Compact & Exhibit) can be combined into hybrid systems & the graphic panels (standardised at 400 mm/15.75” & 800 mm/31.5”) between the models can be interchanged as well.

The flexible Wave link is a strong aluminium structure which enables you to instantly shape your display as desired. Reshape the link as needed, from straight to halfcircle, in either direction.

A full range of useful ISOframe accessories is available & can be easily attached to the system – holders for monitors & Pads, spotlights, literature holders etc.

The design of ISOframe delivers the utmost in functionality, attractive looks, quality finish & close attention to the smallest detail.

All ISOframe models incorporate our patented & tool-free FASTclamp connector – no more struggle with nuts & bolts used on other systems.

ISOframe Exhibit™

Extremely cost effective. No specialist trades are required during set-up. This coupled with reduced storage & transportation costs, not to mention the re-usability of the system, means exhibiting becomes a lot more cost effective with ISOframe.

- 1 Media screen
- 2 Storage room
- 3 Lockable door

ISOframe Exhibit™

ISOframe Exhibit is the ideal system for designing & building customized large format exhibition stands. It uses fixed horizontal beams (available in 9 different shapes), instead of the flexible Wave link, to give the system the rigidity & stability needed for more advanced large size constructions (up to 5 meter / 16 ft. height). Our unique tool-less FASTclamp connector & easy to use self aligning graphics let you create these stunning exhibition stands both easily & cost effectively.

Ideal for customized stands

ISOframe Exhibit is extremely versatile to fulfil a large variety of different design needs & shapes. Special 3D-design software is available for our worldwide distributors & dealers to create attractive & functional stands.

Sold in component form

ISOframe Exhibit uses fixed horizontal beams in different shapes: 5°, 10°, 15°, 22.5°, 30°, 45°, 60°, 90° & straight, as well as vertical posts in different lengths to create the desired design & height of the stand.

Use single- or double sided

An Exhibit wall looks fantastic when clad with graphic panels on both sides. The unit is extremely slim (40 mm / 1.5") & the aluminium corner trims further enhance the impression.

PRICING

Email us for a complete component list or email your ideas for pricing

ISOframe Wave™

ISOframe Wave™

The World's first fully flexible portable display system. Stunning looks, infinite flexibility & extremely user-friendly – ISOframe Wave is the first portable display system combining the best of all worlds. Flex the entire exhibit wall into the shape you need at each venue, extend or reduce as required. All thanks to the unique Flexi-Wave link connector which connects every vertical post in the system. ISOframe Wave is ideal for small & medium sized exhibit areas where total flexibility is paramount.

ISOframe Wave – The Shapeshifter™

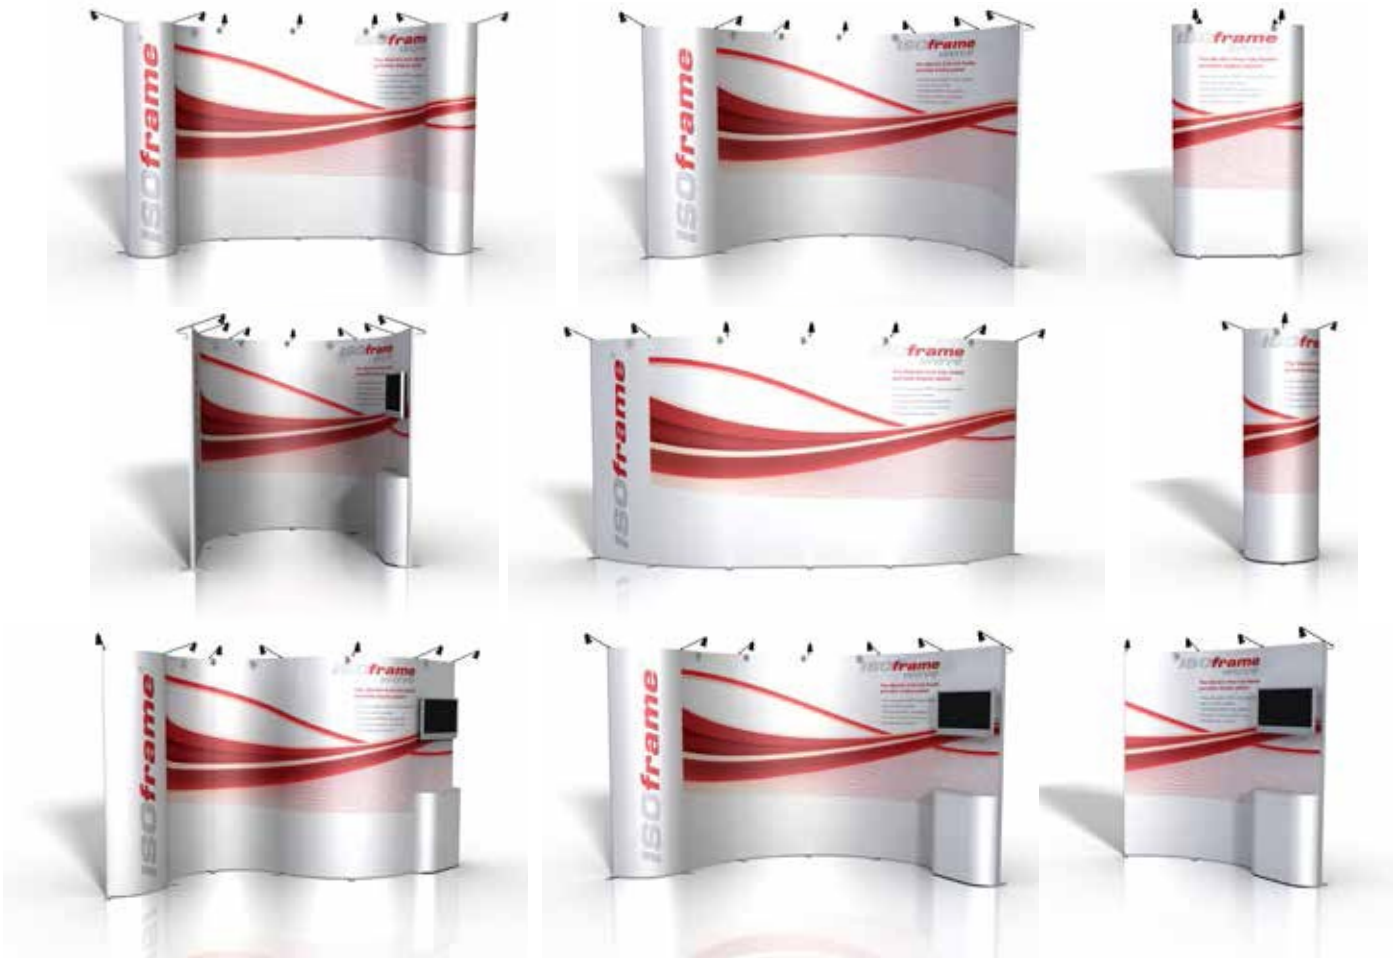

The ISOframe Wave system is extremely compact during transport. A selection of bags & cases for the structure & the graphic panels are available.

- 1 Media screen
- 2 Self-aligning 800 mm (31.5") wide graphics
- 3 Keyboard table attachment
- 4 Three standard heights:
Mini 209 cm (80.1"),
Midi 229 cm (88.6") &
Maxi 249 cm (96.5")

ISOframe Wave™

Shape your display as desired

Alternative layouts created using the same (or fewer) graphics & framework as the 6-section display shown on opposite page.

ADVANTAGES

Email us to find out the advantages of becoming a preferred isoframe dealer

The patented Flexi-wave link

The wave link can flex up to 180 degrees each way in the horizontal position, yet the structure remains unbelievably strong & stable.

Easy mounting in a few steps

ISOframe Ideas

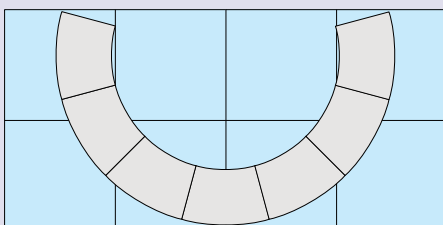

ISOframe Counter & Shelf Systems

ISOframe – Large Reception Counters

The Mark Bric ISOframe program now includes a modular system of large reception counters, which can be individually designed to fit any reception area or trade show stand. Choose one of our complete counter units – straight or curved - with wooden top & inner shelves in black finish, or customize your counter by combining different counter sections into a unique shape. All of our reception counters offer a stylish solution at a reasonable price, with no compromise on quality.

A curved 7-section customized counter unit.
Approx. size: 3m (w) x 2m (d) / 118" (w) x 78" (d)

FASTclamp

The ISOframe counters have an easy & tool-free assembly thanks to our unique & patented FASTclamp connector.

Useful inner shelving

The standard counter units include 1 inner shelf for each section. More shelves can be added & purchased extra.

Double sided graphics

The counter units can be prepared & delivered for using graphic panels on both sides. Please state when placing the order.

Carrying bags & graphic cases are available.

Easy mounting in a few steps

Standard units

3-, 4- & 5-section counter units (straight or 30-degree curve) serve as our standard units. Delivered complete with framework, top shelves & 1 inner shelf/section.

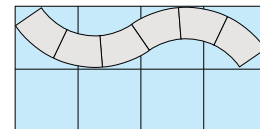

A straight 3-section standard counter unit. Approx. size: 2,5m (w) x 0,5m (d) / 98" (w) x 20" (d)

A curved 5-section standard counter unit. Approx. size: 3m (w) x 1,4m (d) / 118" (w) x 55" (d)

Customized units

Combine curved & straight sections to build your own unique reception counter. 12 curved sections make a full circle.

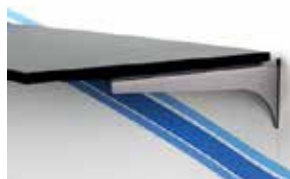

An S-curved 6-section customized counter unit. Approx. size: 4,1m (w) x 1m (d) / 161" (w) x 39" (d)

ISOframe – Shelving System

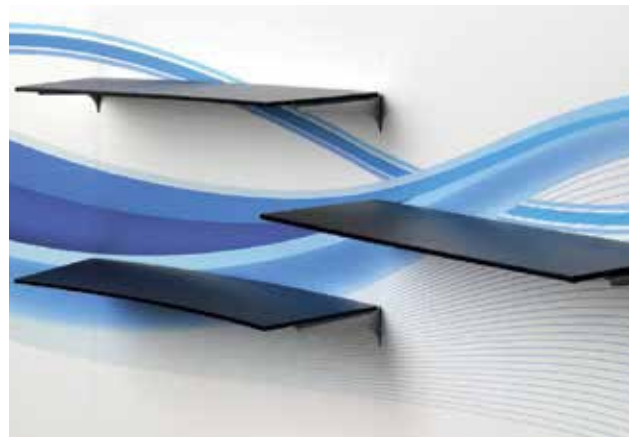

A new & smart system for attaching shelves to the ISOframe backwalls & trade show stands. Choose number of shelves & their position in line with your needs & requirements. One more useful addition to the highly versatile ISOframe system.

The wooden shelves are in an attractive black finish & available in a straight or 22,5° curved shape.

Shelf holders (brackets) are equipped with pre-mounted velcro tape for holding the shelves in place. Screws can be added for a fixed mounting.

Please note: Free-standing wall units may need an extra support for securing stability. Please contact us for our recommendations.

ISOframe Fabric System

ISOframe® – Fabric

Ideal for shell scheme or freestanding stands, our silicone-edged tension fabric system is extremely portable & with our unique FASTclamp connector, gives a tool-free assembly, making it 15 times faster to build than conventional tension fabric frameworks.

- Exclusive frame clamp creates perfect mitred corners & is 15 times faster to construct than rival fabric products
- Tool-less assembly
- Continuous, unrestricted fabric graphics
- Extremely portable, lightweight graphics
- Easy for the self-build market, both freestanding & shell clad

Mounting fabric

The silicone edge simply glides into the channel.

Easy mounting in a few steps

Insert angle brackets into the profile.

Snap the FASTclamp closed to secure.

Repeat with the second profile.

A secure connection without any tools!

Visirite

The possibilities are endless for Visirite!
Got a signage project? Use Visirite.

ADVANTAGES

1. 1 System = 1000's of solutions
2. Easy handling & assembly
3. No high cost equipment
4. Low labour costs

Visirite

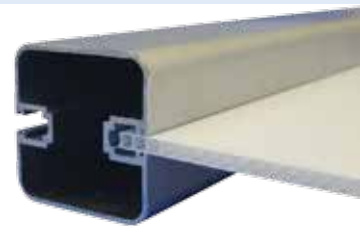

The Visirite concept was developed out of the need for a solution to replace the practice of tying banners placed between two star pickets which take but a gust of wind to turn from a company advertiser to a company deterrent. Visirite fits perfectly over star pickets and keeps those banners looking excellent! This initial concept has grown into a much larger range of signage solutions so much so that it can now meet all of the sign writers needs, take care of all substrates and perfect for all sizes

- Real estate
- Balustrade
- Café Barriers
- Information Boards
- Directional Boards
- Fencing

Applications

Visirite Frame Combinations

Visirite Frame Combinations

Using a combination of Standard Visirite Extrusion & Mini Visirite extrusion you can create Large sign frames.

Size does depend on the location of the sign.

Combining standard visirite and mini visirite also allows you to create frames that are insert. These are perfect for real estate signs and other prestige sign requirements.

Visirite for Banners

Demonstrate the advantages of Visirite with the Visirite Demo Box

Visirite for Banners

Eliminate unsightly unreadable banners!

Using Visirite you can ensure every outdoor banner stays presentable and readable even after some of the strongest winds.

Create this simple solution by using the following components:

- Choose your Visirite colour and size
- Cut the extrusion to size
- Add the quickcorner for extra strength
- Hold it together with the Heavy duty 90 degree bracket
- Slide it over the star picket

Visirite Demo Box

- Includes all components

Rite Ecoflex

Not for high wind areas

Easy 'no tools' assembly

Carry Handle

SAFE CORNERS

Rounded corners & smooth powdercoated edge minimizes health & safety concerns

You can either insert your own board (Corflute, PVC, aluminium) or purchase our white powdercoated aluminium board.

Large display area for maximum visual impact

Rugged recycled PVC base for excellent stability & performance, surface may vary due to recycled material.

Rite Ecoflex

This new & cost efficient sign holder is perfect for pavement, roadside & forecourt promotion. The combination of low centre of gravity & flexibility with sign boards provides you with the most wind resistant, weather resistant, versatile & cost efficient sign holder available.

The base is not water fillable therefore clients are not inconvenienced by having to fill the base with water to make the system usable.

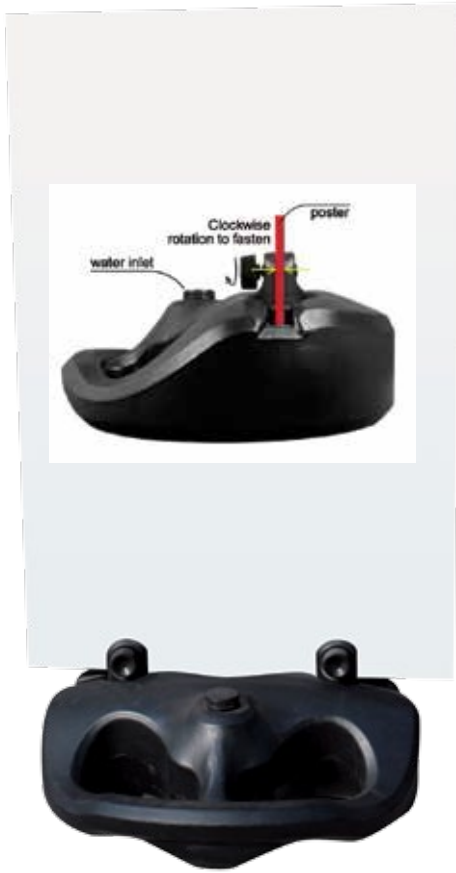

Tested in winds over 110 km/h!

Single nylon fixing
No tools required

Rite Sign

RiteWall – sign base

Rite Sign

The rite sign is a very versatile sign board holder ideal for outdoor situations. This sign holder can grip up to 10mm board. You can even use a series of these to hold very long panels. The base can be filled with water to prevent these overbalancing in various outside conditions.

Item No	Size	Colour
ET4-145	Rite Sign	Black

RiteWall – sign base

The system is lightweight, simple, highly durable, flexible & indestructible. It can be used with PVC, Forex, Foam Board, Wood, Glass & many other types of panel material.

In addition, the plastic base can be filled with water or sand for extra stability, which makes them perfect for outdoor use.

Our exclusive, lightweight & durable Rite Wall enables a quick & cost-effective solution for campaign signs, POP materials or partitions

The Rite Wall is available in these colours:

- Black • Red • Orange • Yellow • Green

Ideal for any occasion. Choose the colour that will fit your campaign best. Try Rite Wall with your cut-outs, panels & sponsor banners.

Rite Wire Stake

Bull Stake

Rite Wire Stake

- 1** 200mm long 3mm wire securely holds 5mm Riteflute
- 2** Tight bends to make it fit your flute neatly
- 3** Strong migweld joints to ensure they don't break easily
- 4** Tough black powdercoat finish to ensure great durability
- 5** Flat bar brace allows for branding, increases strength & helps with ground insertion
- 6** Strong 5mm wire to ensure your stakes don't bend when inserting into the ground

Item No
ET4-2504

Bull Stake

The Bull stake is our heaviest duty wire stake. They are made from 8mm rod with a flat bar at the bottom to prevent bending when inserting them in the ground. The Top section is made from 4mm wire to insert into 5mm flute sheet. These wire stakes are also taller at 400mmH to give you greater visibility at the same time not compromising with strength due to the extra thick rod structure. There is also a spot to include an extra marketing card or home open time, you can make these out of 3mm flute sheet.

- Heavy duty 8mm rod base
- Horizontal flat bar to maximise strength of step
- Accommodates 5mm thick flute sheet
- Interchangeable message spot 3mm flute sheet
- Mig welded not a weak spot weld!

Item No	Description	Size
ET4-2503	Bull Stake	40mm

Rite Window Clip

Flute Header Stake

Rite Window Clip

- Great for car yards & private sales
